

USEN-OBONG ETIM ISAIAH

FRONTEND WEB DEVELOPER

PROFESSIONAL SUMMARY

Motivated and detail-oriented Frontend Web Developer with experience designing and developing responsive, user-friendly websites for businesses and individuals. Skilled in HTML, CSS, JavaScript, PHP, website deployment, domain configuration, and web hosting management. Currently a Frontend Web Development student at Techsphere Academy and a Diploma student in Biblical Studies at the School of Preaching, Uyo. Demonstrated ability to deliver functional and visually appealing web solutions, including projects for international clients such as Creatures Unique Services, a home services company based in Canada.

PROFESSIONAL EXPERIENCE

Freelance Frontend Web Developer

2024 – Present

Self-Employed

- Design and develop responsive websites for businesses and personal brands.
- Create modern, user-friendly interfaces optimized for desktop and mobile devices.
- Deploy and manage websites using hosting platforms and custom domains.
- Collaborate with clients to understand project requirements and deliver tailored web solutions.
- Ensure website functionality, performance, and visual consistency across browsers.

PROJECTS

Creatures Unique Services Website

<https://www.creaturesuniqueservices.ca>

Developed and deployed a professional business website for a Canadian home services company. The website showcases the company's services, builds trust with customers, and provides an easy way to request estimates and contact the business. Implemented responsive layouts, service pages, contact forms, and optimized user experience across different devices.

Technologies Used: HTML, CSS, JavaScript, PHP, Domain Management, Web Hosting, Netlify

Professional Portfolio Website (for a Client)

<https://jocular-cascaron-6d3edc.netlify.app/>

Designed and developed a modern portfolio website for a client to showcase personal information, skills, services, and projects. Focused on clean UI/UX, responsiveness, and professional presentation.

Technologies Used: HTML, CSS, JavaScript, Responsive Design, Netlify

Company Website (In Progress)

Currently developing a corporate website focused on modern design, responsive layouts, and optimized user experience. Responsible for planning, design implementation, and deployment strategy.

Technologies Used: HTML, CSS, JavaScript, PHP, Domain & Hosting Integration
